Verlängerung (A) entsprechend kürzen, damit der Griff nicht klemmt. Sollte der Griff trotzdem zu leicht oder zu schwer zu drehen sein, lässt sich dies im Innern (B) einstellen.

Raccourcez la rallonge(A), de façon que le croisillon ne bloque pas. Si le croisillon se tourne quand même trop dur ou facile, on peut le régler à l'intérieur (B).

Cut down the extension (A) so that the handle doesn't jam. If the handle nevertheless turns too hard or too easy, it can be adjusted on the inside (B).
